

CANOE & KAYAK MAP OF THE WILLIMANTIC RIVER

LOWER RIVER (Coventry, Mansfield)

Map numbers refer to the notes on river features and launch sites below. See “Boat Launches” for launch site directions and information. Because river conditions and access points may change over time, use of the information in this guide is at the sole risk of the user.

16 At upper end on Eagleville Lake, watch for large tree and turn into R channel.

17 DANGER 15-foot dam. Take out at launch site on R (west) side above dam and portage to launch site on Mansfield side downstream of bridge.

Launch 9 Eagleville Dam in Coventry (15.1m)

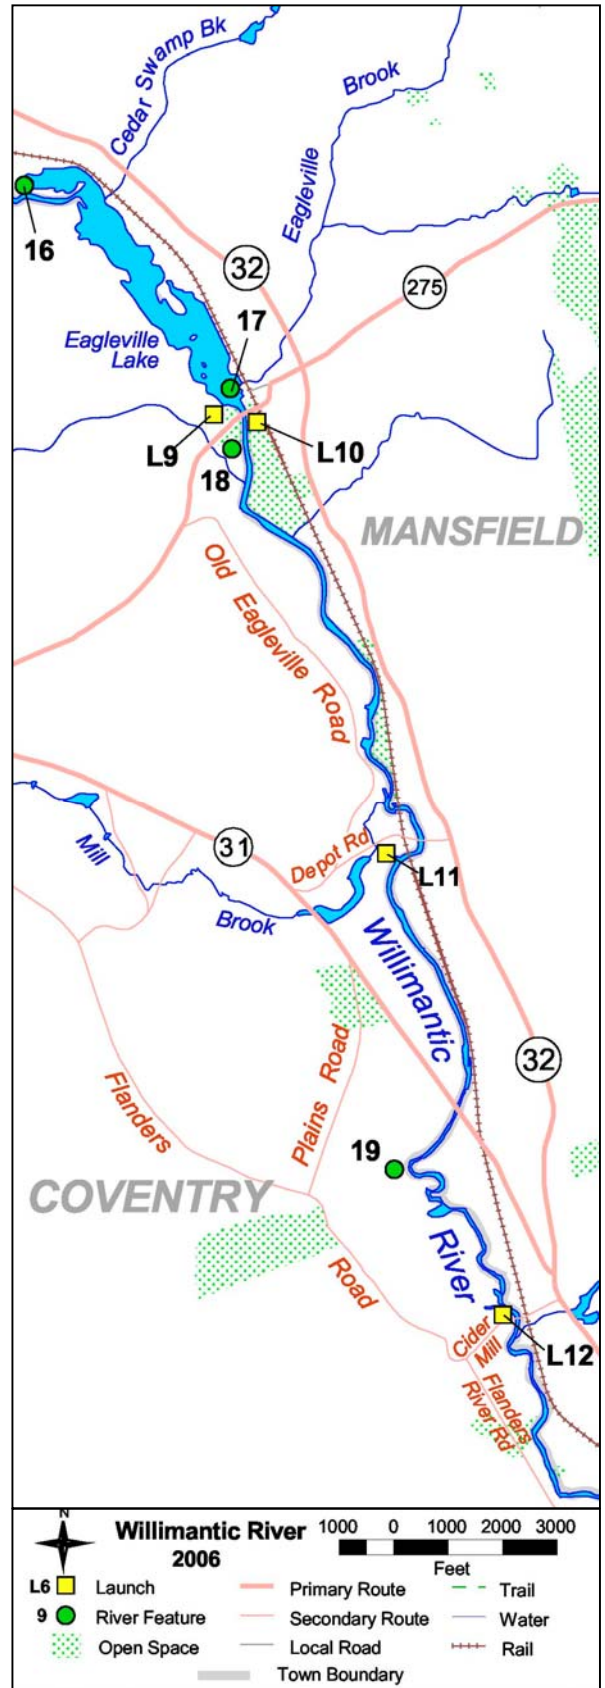

Launch 10 Eagleville Dam in Mansfield (15.1m)

18 Stay R above narrow channel. Do not hold onto the large downed tree on R bank.

Launch 11 Depot Rd. in Coventry (16.9m)

19 Stay R on first bend S of Rt. 31 bridge to avoid gravel bar on L. Pull off on R bank and scout ahead.

Launch 12 Cider Mill Rd. in Coventry (18.9m)

Map notes: Canoe and kayak features provided by the Willimantic River Yacht Club in March 2006. Map created by Denise Burchsted from base data provided by CT DEP through UConn's Map and Geographic Information Center (MAGIC) website at <http://magic.lib.uconn.edu/>. Data accessed on March 2005. Additional information provided by the Willimantic River Alliance. Creation of maps funded by a Partnership grant from the Quinebaug-Shetucket Heritage Corridor.
